WARNINGS Read Before Using Your Sega Dreamcast™ Video Game System

CAUTION
Anyone who uses the Sega Dreamcast should read the operating manual for the software and console before operating them. A responsible adult should read these manuals together with any minors who will use the Sega Dreamcast before the minor uses it.

HEALTH AND EPILEPSY WARNING
Some small number of people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns that they encounter in everyday life, such as those in certain television images or video games. These seizures or loss of consciousness may occur even if the person has never had an epileptic seizure. If you or anyone in your family has ever had symptoms related to epilepsy when exposed to flashing lights, consult your doctor prior to using Sega Dreamcast.

In all cases, parents should monitor the use of video games by their children. If any player experiences dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, IMMEDIATELY DISCONTINUE USE AND CONSULT YOUR DOCTOR BEFORE RESUMING PLAY.

To reduce the possibility of such symptoms, the operator must follow these safety precautions at all times when using Sega Dreamcast:
- Sit a minimum of 6.5 feet away from the television screen. This should be as far as the length of the controller cable.
- Do not play if you are tired or have not had much sleep.
- Make sure that the room in which you are playing has all the lights on and is well lit.
- Stop playing video games for at least ten to twenty minutes per hour. This will rest your eyes, neck, arms and fingers so that you can continue comfortably playing the game in the future.

OPERATING PRECAUTIONS
To prevent personal injury, property damage or malfunction:
- Before removing disc, be sure it has stopped spinning.
- The Sega Dreamcast GD-ROM disc is intended for use exclusively on the Sega Dreamcast video game system. Do not use this disc in anything other than a Sega Dreamcast console, especially not in a CD player.
- Do not allow fingerprints or dirt on either side of the disc.
- Avoid bending the disc. Do not touch, smudge or scratch its surface.
- Do not modify or enlarge the center hole of the disc or use a disc that is cracked, modified or repaired with adhesive tape.
- Do not write on or apply anything to either side of the disc.
- Store the disc in its original case and do not expose it to high temperature and humidity.
- Do not leave the disc in direct sunlight or near a radiator or other source of heat.
- Use lens cleaner and a soft dry cloth to clean disc, wiping gently from the center to the edge. Never use chemicals such as benzene and paint thinner to clean disc.

PROJECTION TELEVISION WARNING
Still pictures or images may cause permanent picture tube damage or mark the phosphor of the CRT. Avoid repeated or extended use of video games on large-screen projection televisions.

INTRODUCTION

Edward Carnby, private eye of the paranormal, is back! When his best friend, Charles Fiske, is found dead off the coast of Shadow Island, Carnby seeks revenge. Carnby contacts Frederick Johnson and agrees to take over the investigation that led to Fiske's demise.

Johnson introduces him to Aline Cedrac, a young University professor, who specializes in ancient Indian languages. Their mission is to find the three mysterious tablets and translate the undecipherable inscriptions. During the flight to the island, it is also revealed that Aline has personal reasons for going to Shadow Island.

As the pilot prepares to land, the sea plane is attacked by a strange, unknown force. Carnby and Aline have only one way out - parachute to safety.

Carnby lands safely in an abandoned yard, but Aline narrowly misses death while landing on the roof of a vast mansion.

THE CHARACTERS

EDWARD CARNBY

Of unknown parentage, Carnby was placed in Saint Andrew's orphanage by social workers.

Carnby now works for an agency founded in 1982 by Charles Fiske, a former member of the top secret FBI investigative department, Bureau 713. As Fiske and Carnby are experts in the paranormal investigation into the supernatural is the basis of their activities.

Carnby is not interested in convincing skeptics nor raising awareness; his personal mission is to combat the dark forces at work around us using only his own mortal powers.

He does not possess the parapsychological powers to make him supernatural, his real gift lies in his ability to recognize evil at a glance and instinctively knows how to deal with it.

To some, Carnby may appear cold, indifferent and even obsessive. The few friends he has, however, recognize his integrity and completely trust him.

Last known address: White House Hotel, 18 Norman Ave., Room 17, Gloucester, Massachusetts
ALINE CEDRAC

Aline Cedrac was born on June 30th, 1974 in the Boston suburb of Lexington. She never knew her father, as her mother, Mary, never revealed his identity to her. Mary Cedrac returned to France in 1992 after an argument, but Aline elected to stay in Boston to finish her anthropology studies. Mary Cedrac died in an accident in February 1993 and, despite extensive research, Aline has yet to discover her father’s identity.

Aline proved to be a brilliant student; her extraordinary memory, along with her deep intuition and diligence, helped her earn a PhD at the age of 24.

She became particularly interested in the study of the Abkani Indian tribe and the recent discovery of the tribe’s writing system, which dates back several thousand years. The discovery, which was attributed to Obed Morton, revolutionized the small world of Indian anthropology. Furthermore, it is also the subject of her forthcoming book, which was funded by a research grant.
STARTING THE GAME

Alone in the Dark The New Nightmare is a game for one player. Before turning ON your Sega Dreamcast™, connect the Dreamcast Controller or other compatible peripherals into Controller Port A - Slot 1.

Note: Each time you save, you use up a Charm of Saving. As Charms of Saving are rare, make sure your saves are really justified.

Warning: Once you have loaded a saved game, the game will resume at the point at which you saved it, but please note that the actions you previously carried out and the Charms of Saving will not be restored.

You must have a Visual Memory Unit (VMU) to be able to save.

The game uses a maximum of 12 blocks of free space to save a game.

CONTINUE GAME

Choose LOAD SAVED GAME from the Main Menu and then select the game you want from those available.

Note: If you do not insert the disc corresponding to the saved game you wish to select, the message 'Insert DISC 1' or 'Insert DISC 2' will appear.

Follow the on-screen instructions to resume the game.
